- Microsoft Office

PROJECTS

Personal Portfolio

https://portfolio-me-sooty-phi.vercel.app/

- Designed and engineered a responsive personal portfolio website using React, Vite, and Tailwind CSS to feature technical projects, system capabilities, and documentation.
- Implemented clean structural layouts and optimized production builds for deployment and hosting via Vercel cloud infrastructure.

GOFIT - AI Powered Fitness and Diet Management Application

React Native, Tailwind CSS, Firebase, Mediapipe, n8n

- **Full-Stack Cross-Platform Development:** Built the mobile client using React Native and Expo SDK 54, integrating Firebase for secure user management and Firestore cloud storage to manage relational metrics including customized workouts and daily macros.
- **AI & Computer Vision Integration:** Implemented real-time form and pose detection by integrating Google's MediaPipe framework, while orchestrating an n8n webhook backend linked with Gemini AI models to process dynamic meal image analysis and generate personalized nutrition plans optimized for regional Philippine cuisine.
